

The World Disability Union (WDU) was established in 2011 as an inclusive umbrella organization for 400 sub-organizations from 91 countries with the status of International Qualified Entities. Within the scope of the Convention on the Rights of Persons with Disabilities guaranteed by countries; Disability prevention; Overcoming the disability; within the framework of the WDU Implementation Projects it developed for the inclusion of people with disabilities into the society, it aims at sustainable corporate work and unity with all relevant and competent parties.

We are the only institution that grants international certificates to places that are environmentally qualified for people with disabilities, whether governmental or private (airports, hotels, transportation, parks, museums, malls....)

The certificate of the WORLD DISABILITY UNION for the places eligible for people with disabilities in its three sections is an official recognition that this place is friendly for people with disabilities **In line with Article 9 of the U N Convention.**

The World disability union continues to evaluate many places eligible for people with disabilities in all countries, around the world, as the committees are working to follow up the audit.

Public Transport (Buses - taxis - express train - electric bus)

The developed countries provide the best adjustments to public transport and transportation to be appropriate and suitable for persons with disabilities, so that they guaranteed freedom of movement and access to various places and destinations similar to their peers. The extent to which these amendments provided in taxis, trains, buses it is a measure of the progress of these countries and their interest in their citizens and residents.
